DETAILED ACTION

Allowable Subject Matter

1. Claims 1-20 are allowable.
2. Claims 1, 12 and 19 are allowable because the prior art of record, taken alone or in combination, fails to disclose or render obvious a method for analyzing particle systems using polarized scattered light, comprising the step of performing ray-trace analysis with respect to models of multiple particle systems of dipoles, involving only second-order rays, in combination with the rest of the limitations of the respective claims.
3. Claims 2-8, 13-15 and 20 are allowable because they are dependent on independent claims 1, 12 or 19, or an intermediate claim, and they include all the allowable limitations of the parent claim(s).
4. Claims 9 and 16 are allowable because the prior art of record, taken alone or in combination, fails to disclose or render obvious a method for analyzing particle systems using polarized scattered light, comprising the step of, correlating a received information corresponding to a particle system with calculated relationships between polarization states and back-scatter angles with respect to multiple arbitrary particle systems, to determine a best fit based on a minimum value of the polarization state of the particle system, in combination with the rest of the limitations of the respective claims.
5. Claims 10-11 and 17-18 are allowable because they are dependent on independent claims 9 or 16, or an intermediate claim, and they include all the allowable limitations of the parent claim(s).

Art Unit: 2877

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
